Council revokes Chief's appt.

At its last regular meeting, council for the Township of Stanhope revoked a decision it made some 12 months earlier and asked former Deputy Fire Chief Carl Harrison to step down from his position in the department in favour of senior fireman and Captain Gord Martin.

A dispute between some members of the department and Chief Richard Kinsman brought the matter to the attention of council and they reversed their decision last Wednesday.

Last year, Chief Kinsman appointed Carl Harrison his deputy and council approved the appointment at that time. Mr. Harrison has served the Township well and is a credit to the fire department. Council had no complaints on Mr. Harrison's ability or performance.

At the council meeting last Wednesday however, when Gord Martin was appointed the new Deputy Chief, Mr. Harrison said he would support Mr. Martin 100 percent and remain in the Department.

After garbage thieves, man trips, shoots self in leg

WILBERFORCE — An 18-year-old Wilberforce man accidentally shot himself with a 12-gauge shotgun early last Tuesday morning and as a result was rushed by ambulance to Peterborough Civic hospital.

Minden OPP report Donald Bradley Fenney, had been intent upon shooting some "masked raiders" who were molesting his garbage. However, as he approached the racoons, he slipped on the outside step of his home, fell and the shotgun went off, the charge hitting him in the leg.

Investigation by PC Bob Pearson.

Call in Travel information available 7 days a week

Travellers throughout Ontario can count on current, up-to-date vacation information thanks to a new program recently initiated by the Ministry of Industry and Tourism.

During winter months, seven centres across the province offer callers road, ski, ice fishing and snowmobile reports seven days a week during regular business hours. In addition, the ministry's Toronto office will keep callers informed with the same information on week days.

The call-in, immediate-result program will switch to resort and campground vacancy reports, local event and attractions and fall color reports during the remainder of the year.

Information will be telexed immediately to Ontario travel information centres to give callers the most current statistics available.

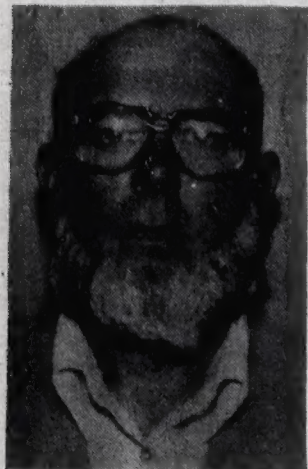

The service is free for a phone call to the following offices every day except Christmas and New Year's Day: Sarnia (519) 344-7403, Windsor (519) 252-8368, Niagara Falls (416) 358-3761, Barrie (705) 726-0932, Hill Island / Lansdowne (613) 659-2108, Cornwall (613) 933-2420 and Sault Ste. Marie (705) 253-8572. The five-day-a-week Toronto number is (416) 965-4008.

Anyone who doesn't like the animals is to be pitied.

A coffee club is what you need to get some of the gang to pay up for the java we make in the office.

A piggybank these days is a sunny slope up against which the pigs lie.

Advertising helps you know why.

BILL PRENTICE

Lutterworth — Last week at the regular council meeting council filled one of their two vacant seats with the appointment of Bill Prentice. Mr. Prentice's term of office went into effect Feb. 14th and will run until the end of the present term.

ARE BROUGHT TO YOU BY THE FOLLOWING FIRMS
INTERESTED IN CONSERVING ENERGY

The 4 lb. a day grind

by Richard Charles

When we lug out those loads of garbage or toss them down a chute, we are not only using up our own energy and that of the garbage truck and its crew, but all the energy resources that go into the production of so many everyday things of life that end on the scrap heap.

It seems so futile. We are expert at making things that look attractive in the supermarket and the department store. Then, in no time at all, we have turned them into something unsightly and offensive that we would rather not think about. The sooner someone comes to take it away and burn it or bury it, the better.

If that garbage could come back to haunt us, we might be shocked into changing our ways. Each of us throws away an average of four pounds of it every day, counting all the waste for which we are wholly or partly responsible. That's about 1,500 pounds a year, and if we live to the age of 70, we each score more than 50 tons of garbage in our time. Just imagine what a small family of four can do, and try burying that pile in your own back yard.

Do you know that we spend \$500 million a year in Canada just to collect and get rid of our garbage? Think of the value of the fuel it took to grow, extract, process, manufacture and transport so much stuff in the first place.

Think of the dwindling stocks of petroleum that we turn into plastic and other synthetic materials, and then use for such a brief time. The same goes for many other raw materials that cannot be renewed.

Think of the money and resources we could save if we did without a lot of the boxes, bags and wrappers that we often throw away as soon as we get them home.

Think how much more enjoyable our land and water would be without the pollution that comes from continually making and discarding all that short-lived stuff.

So, what can we do for relief from the daily grind of making four pounds of garbage?

We can serve meals no bigger than our appetites, unless, we can keep what is left for another time.

We can buy things only when we need them and try to avoid buying all that packaging as well.

Where there's a choice, we can stop using disposables like plates, cups and diapers made of paper.

We can buy liquids in reusable containers such as bottles and milk jugs instead of cans, plastic bags or cartons.

We can buy things that last longer, especially in furnishings, appliances and clothing.

We can do more mending and fixing instead of discarding.

We can save wrapping materials and use them again.

We can send unwanted household items to charities or second-hand stores if they are still usable.

We can help in collecting bottles, cans and paper that could be recycled into new products.

None of this calls for a return to the Dark Ages, but quite a small shift in our habits that would make life no less enjoyable, and perhaps more attractive. It's not only garbage that's a blight, but all the other things that we allow to rust, rot or fall apart, when they could be rescued with a little more care.

There's a publication call **The garbage book** that tells how you can help. Write for a copy to Box 3500, Station C, Ottawa, Ontario, K1Y 4G1. It is issued by the Office of Energy Conservation, Department of Energy, Mines and Resources.

Port Perry captures Tim Harrison trophy, Minden wins Consolation final 4-3 at Centre

Champions of the 3rd annual Tim Harrison Memorial hockey tournament, the Port Perry Grant Menzies Pacers.

Doug Gibson, Ops brilliant young goaltender, accepts outstanding goalie award from Kinsman Lyle McKnight.

MINDEN — The 3rd annual Tim Harrison Memorial Midget hockey tournament took place at the Community Centre in Minden over the weekend and Port Perry and Minden walked off with the silverware.

Port Perry Grant Menzies Pacers, preparing for the All-Ontario Quarter-finals with Bancroft this week, easily downed Ops Greg Hickson Auctioneers, 4-0. Dennis Franssen led the Port attack with two goals while singles went to Mark Cleveland and C. Brown.

Minden's Walker's Lumber Midgets had a tough go with the Peterborough Petes in the Consolation championship but emerged victorious on a goal late in the third period by David Shapiera. Brian Shaw scored three times in the game, which ended 4-3 for Minden. Scoring for the Petes were Rusty Johnston, Jamie Winch and Doug Ogilvie.

Winner of the Tim Harrison tournaments top goaltender award was Doug Gibson of Ops who faced 74 shots in three games while allowing only six goals.

The top forward in the tournament, although there was no award, was Brian Shaw. Brian picked up nine goals and assisted on four others.

Minden opened the tournament with a loss to Ops. The two teams tied 1-1 but Ops won by scoring the first goal of the game. They then met Cannington and obviously were very upset over losing their first game because they completely destroyed them 11-2. Brian Shaw scored six times, Tim Davies three and singles went to Garry Harrison and Dan Allison. Allison scored the only goal in the first game as well.

THIRD OF A SERIES

Reduce high blood pressure

During the recent past, Canadians have been exposed to a mass of information through the media and other outlets on the subject of high blood pressure and the necessity for having their blood pressure checked. Scores of community screening programmes have been carried on by the Heart Foundations and others to help identify Canadians with elevated blood pressure and persuade them to check with their doctors to establish whether they do or do not have high blood pressure.

Why all the fuss? Is this just another in a long list of promotions to exhort us to do or not to do something because it is good or bad for us? Many of these exhortations, it seems, are to do things we don't like to do or not to do things we do like to do. Is this another of these "punishments" we seem to merit because of our lifestyles in Canada, or North America, or the Western World?

The reason for the fuss, of course, is that high blood pressure is the single most important and identifiable factor contributing to heart attack, stroke and kidney disease and is also a factor in more than half of the deaths due to heart disease. Nearly two million Canadians have high blood pressure, half of them don't know it and many of them will risk premature death and disability unless their blood pressure is reduced. Of those who know they have high blood pressure, only half have it treated and, of the latter, only a small percentage co-operate with their doctors in the long-term control of their condition.

High blood pressure is an insidious problem and can occur at any age. It usually produces no symptoms until it is too late. In most cases, the cause is unknown and it cannot be prevented. Obviously, therefore, everyone should have a blood pressure check regularly. The test is simple, painless and inexpensive and if your doctor should diagnose high blood pressure, it can be controlled in most cases by drug and diet therapy.

While the means of controlling high blood pressure are readily available, the incentive to seek out and continue treatment is too often lacking in those who have it. This despite the fact that it doubles the risk of heart attack and increases the chance of stroke by four times. Data based on long-term studies has shown that control of high blood pressure may prevent stroke. Therefore the most promising key to prevention of stroke is the detection and control of high blood pressure.

Surely these facts justify the "fuss" and continuing programmes of the Heart Foundation to alert Canadians to the dangers of high blood pressure and the need for regular blood pressure checks.

The question of whether high blood pressure is a problem only of North America or the Western Hemisphere has been answered by the World Health Organization, which, in co-operation with the International Society and Federation of Cardiology and the national Heart Foundations, has declared April 1978 as World High Blood Pressure Month in an at-

County Council endorses Ed. resolution from Grey County

At the regular meeting of Haliburton County Council on Wednesday, council endorsed the following resolution from the County of Grey. That the Ministry of Education be asked to consider re-structuring the present system of local Boards of Education to make the Ontario Educational System more responsive to the people for the following reasons:

1. The cost of education has increased greatly each year to a point where this levy accounts for more than one-half of the municipal levy, and shows no sign of abatement.
2. The present system is top-heavy in the Administrative and Consultant Personnel area and the range of salaries paid to this Administrative staff, consultants and upper management personnel does not reflect community levels.
3. The quality of education has been under review by a select committee appointed by the government of Ontario.
4. The present system of representation on local school boards has not been responsive to community opinions as regards cost and quality of education.
5. If the recommendations as presented in the report of the Blair Commission on Taxation, are implemented by the Provincial government, as documented in the remarks of the Honourable Darcy McKeough on Property Tax Reform, the share of the cost of education of the local municipalities would appear to be increased dramatically.

Haliburton County council not only passed a resolution to endorse this one, but wants the Ministry to look into all boards of education not just local boards.

Minden Rotary Club to hold 2nd annual Skate-a thon

The Minden Rotary Club has decided to hold a Skate-a-thon to raise funds to help all community organizations. The skate-a-thon will be held on March 31 and April 1st, 1978 and will be patterned after the most successful skate-a-thon held by the Minden Rotary Club last year.

All community organizations will be asked to participate with half the funds raised going to their individual projects and the other half to the Rotary club.

All costs involved in staging the event will be paid by the Minden Rotary Club. Extra pledge forms may be picked up at Floyd Hall Real Estate Office and also Northland Surplus in Minden.

tempt to draw international attention to this disease and concert efforts to control it. Among the eastern countries playing a prominent part in this project are India and Japan, where high blood pressure and stroke have a much greater incidence than Canada or the United States.

The theme of this international project is a fitting one — "Down With High Blood Pressure!"

For free, detailed information on high blood pressure, contact your Heart Foundation.

Ask Alma

Dear Alma, Do dogs smile? Pooch Person, U of Md.

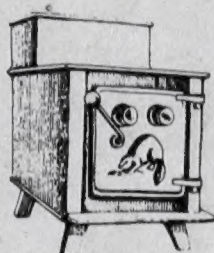

Dear Pooch, I took this dog of a question to my vet, Dr. Michael Schaefer. He assures me that not only do dogs smile when they're happy, but he has a black Labrador retriever who even smiles on command. The doctor says you can recognize a smile by the full set of teeth exposed as the dog pulls back his lips. I think I'd rather trust a wagging tail.

Dear Alma, I have this chemistry teacher in school who is considered to be the best in the country. However, he is very impatient and blows his stack easily. If you don't catch on to the work right away and you ask questions, he will embarrass you.

Now, I'm not the brightest student in the world, but I don't like to be embarrassed. What should I do? Tired of Being Embarrassed.

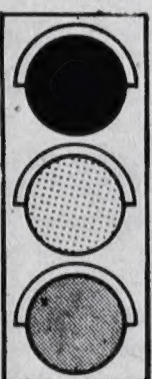

Dear T.B.E., My guess is that his STUDENTS didn't vote him "best in the country." It's possible that your teacher isn't aware of the bad personal chemistry bubbling in his classroom. Why don't you send him a copy of this column or share the problem with your counselor who can

Samantha READS YOUR STARS

If you were born this week: You are charming, fascinating, and rather mysterious. You have a marvelous imagination and probably daydream quite a bit. You should make sure that you don't dream more than you do. You may tend to idealize those close to you and see only the qualities you wish to see.

ARIES (3-21—4-19): If you don't want to flip your wig, Aries, make sure you've got it on straight. Now, that may require you to plant yourself in a corner and meditate. If so, do it, baby, even if you have to glue yourself there.

TAURUS (4-20—5-20): The full moon should bring you a bushel and a peck of romance and social activity, Taurus baby. You can charm your special bird out of the highest cherry tree. You won't have to chop it down. Later, sometimes you just can't hurry things along; let nature take its course and relax.

GEMINI (5-21—6-20): A conflict surfaces. And now that you can see it, you know how to deal with it. Don't you, Gem? Later, read between the romantic lines, even if you have to get out your magnifying glass. BEFORE you fall head over heels. That first step is bigger than you think. Days whirl by.

MOONCHILD (6-21—7-22): News from afar may concern family and/or travel; in any case, you'll grin from ear to ear about it. Moonbaby. Good planning and the right timing are essential to success. Don't ignore either one. Kisses close week.

LEO (7-23—8-22): Feelings of déjà vu may abound this week, Leo. Don't just remember the past, learn from it, too. And if that old path is a dead end, new trails are waiting to be blazed. Later, pay attention to domestic affairs.

VIRGO (8-23—9-22): You're apt to make a few waves in week ahead, Virgo. Don't panic as the water gets rough. You've never started anything you can't finish. And in fine style, too. By the way, routine matters need care, too; don't forget 'em. Latter days hold spice, spirit, and

LEASING & RENTAL

VERY LITTLE DOWN WHEN YOU LEASE A NEW CAR FROM US

That's because your deposit on a new leased car can be substantially less than what you'd put down to buy a new car. What's more, you'll never fret over what your lease car is worth at trade-in time because your car will never get too old.

Each monthly leasing payment also covers such costs of enjoying a new car as financing, depreciation, taxes.

There are other solid reasons for leasing a new Chevrolet from us. So, come on in. Let's discuss the lease plan ... and that new Chevrolet ... that fit your needs.

And your pocketbook.

Vasey Juveniles lead play-off for Zone Championship, 2-1

MINDEN — Vasey's Juveniles have put two solid team efforts back to back, to go in front 2-0 in their best three of five play-off series with Newcastle to decide the Northern Ontario zone championship. Their latest victory being at the Centre in Minden before some 500 fans, winning 5-3. They opened the series in Newcastle on Tuesday evening, also winning 5-3.

Dave Brown led the Minden attack in Newcastle scoring four times and setting up Brian Shaw for the fifth goal. Shaw assisted on all four of Brown's goals.

In Minden on Friday night, the Vasey boys got on the scoreboard at the 38 second mark, Dave Brown scoring unassisted. They upped the count to 2-0 at the 37 second mark of the second period on a goal by Steve Davies on a pass from Brian Shaw. Shaw then scored two in a row to make it 4-1, Davies assisting on the first and Brown on the second. Dale Millson scored early in the second to make it 2-1. Brian Allan and Dan Allan then cut the Minden margin to one goal with 1:36 gone in the third. Dave Brown iced the victory with an empty net goal with just 38 seconds to play. Newcastle was playing with three men in the penalty box and another, Ron Potter ejected from the game with a match penalty for shoving a referee. Minden picked up eight minors in the game to 15 minors plus the match penalty to Newcastle.

Kinmount family flees fire

KINMOUNT — Last week the Bowman family of Kinmount fled in their nightclothes to escape a fire that destroyed their storey-and-a-half frame farm house during the night. A spokesman at the Somerville Township's Fire Department stated that when they arrived on the scene about 1 am, the house was fully engaged. Firemen fought the blaze for two-and-a-half hours.

Destroyed was the home of Archie Bowman, his wife Gladys and their six children, located on the Davis Lake Road about two miles from Kinmount. The family is staying with Mrs. Brown's father, Albert Crego of Kinmount now.

A relief fund for the family has been set up at the Kinmount Branch 441 of the Royal Canadian Legion. Mr. Crego says his family needs everything. He added that they were lucky to escape uninjured, but the smallest member of the family, a three-year-old daughter came out of the house with only her underclothes and had to make it to her grandfather's house in minus 10 degree temperatures.

The children range in age from three to 19. There are three boys 14, 16 and 19 and three girls aged 3, 10 and 12.

The cause and estimated loss was not available at press time. The fire call was answered by the Somerville Township Fire Department pumper and a spokesman for the department stated the house was totally destroyed.

OUR WEEKLY BREAD

During the season of Lent we try to give up something that we especially like to do. It is in deed a good time to give up things and yet obtain grace by it. For instance certain foods, smoking, alcohol and many others. These are things that are very hard to do. Or we may have a habit that we do not really want. So now is the time to try, and Spiritually the reward is much greater than realized. —PM

May apply for grant

STANHOPE — At the regular meeting of Stanhope council last week, council approached the Stanhope Recreation Committee to review proposed projects to be started in the township this coming summer. When these proposals are forthcoming from the Committee, council will be making an application to the Young Canada Works Program for a grant. The grant hopefully will employ between 10 and 15 students for eight weeks.

The application will be made within the next week as it must be applied before February 17th.

Minden Curling rink wins Central Distillers trophy

Two weeks ago at the Minden Curling Club, the club held a very successful men's bonspiel. Eight teams took part in the bonspiel, three from Minden and Wilberforce and one each from Brampton and Haliburton.

When the final rock had been swept into the house, the Minden rink of skip Bob Austin, third, Neil Burk, second, Jerry McKelvey and lead Paul Heffer emerged victorious. The Austin rink won the Central Distillers Trophy as bonspiel champions.
